

**MASSACHUSETTS INSTITUTE OF TECHNOLOGY
SLOAN FELLOWS PROGRAM IN INNOVATION AND GLOBAL LEADERSHIP.
(Integration of former Sloan Fellows and Management of Technology Programs)**

This is an intensive 12-month program designed to be more academically rigorous than other similar programs, leading to either an MBA, a Master of Science in Management or a Master of Science in Management of Technology.

Who Should Attend

Outstanding, mid-career executives, in preparation for more senior management/ leadership responsibilities.

Program Highlights

- An emphasis on the understanding of and the ability to work with the broad spectrum of quantitative tools available to management to assist in the gathering and processing of data for decision making and policy formulation;
- Focus on understanding human behavior and, most especially, that this behavior is important and subject to both analysis and influence;
- Provides an understanding of the breadth of functional knowledge that is available to managers; and
- Stresses an understanding of the environment, which surrounds an organization, and of methods for uncovering basic issues and trends in the environment that will affect organizations in the future.
